SUMMARY

Information Science student (Economics minor) specializing in FP&A. I analyze revenue, profit, and margin using Excel, Power BI, DAX, and SQL. I've also advised 200+ insurance clients on cost trade-offs in plain language.

EDUCATION

Bachelor of Science in Information Science, Minor in Economics

2021 - 2026

University of Colorado Boulder

Relevant Coursework: Microeconomic Theory, Macroeconomic Theory, Information Exploration, Data-Centered Systems

ANALYSIS PROJECTS

Retail Sales and Profit Analysis | Power BI, DAX

2026

INFO 3402, University of Colorado Boulder

- Modelled four years of multi-currency retail sales as a star schema (one fact table, three dimensions) and built reports answering nine business questions on revenue, profit, delivery times and customer segments.
- Built a DAX revenue measure that converts every sale to US dollars using its own exchange rate, so revenue and profit compare on one currency across all reports.
- Excluded the online channel (about \$4M in revenue) from store rankings so physical locations (top store about \$136K) could be compared fairly, while keeping online sales in product and customer analysis.
- Identified Computers as the most profitable product category at \$1.57M, more than double the next category.

PROFESSIONAL EXPERIENCE

Licensed Health Insurance Broker

Aug 2025 - Present

Health Plan Helpers

- Advised 200+ clients on health insurance options across 4 carriers, comparing premiums, deductibles and out-of-pocket costs to support enrollment decisions.
- Translated complex plan details into clear recommendations for clients with different budgets and coverage needs.

New Hire Trainer / Gate Agent

Aug 2024 - Aug 2025

Frontier Airlines

- Trained and mentored new hires through a two-week onboarding program while serving as a resource for gate procedures and daily administrative tasks.
- Managed time-critical gate operations, including weight-and-balance baggage checks and boarding verification.

TEAM PROJECTS

Discover Stage | Senior Capstone

2025 - 2026

- Built the backend API and database (FastAPI, SQLite) and turned testing with 15 users into feature priorities.

Student Quest | Software Engineering

2024 - 2025

- Led a 5-person team, turned survey data from 20 students into feature priorities, and built the front end.

SKILLS

Analysis: Excel (formulas, pivot tables, lookups), Power BI, DAX, SQL, Data Modelling (Star Schema)

Development: HTML, CSS, JavaScript, React, FastAPI, SQLite

Professional: Client Advisory, Communication, Team Leadership, Project Management
